

## Seven Oaks Women's Center

### Well Woman Exam Financial Consent Form

Thank you for choosing Seven Oaks Women's Center for your healthcare needs. Please review the following information regarding your annual well woman exam and associated billing practices.

#### What is an Annual Well Woman Exam?

An annual visit, also known as a “**well woman exam**,” is a preventive care appointment. This visit may or may not include a Pap smear, and typically involves:

- A physical exam
- A breast exam
- A pelvic exam

Other topics that may be discussed at your visit include:

- Birth control options
- Hormone therapy
- Updated Pap smear guidelines
- Screening recommendations for breast and colon cancer

#### Billing and Financial Responsibility

- A **typical annual exam** is considered preventive and does **not require a copay**.
- If your visit includes **additional evaluation, testing, counseling, or treatment**, a copay and/or **separate charges may apply**.

Examples include, but are not limited to:

- Extended discussions about **birth control** or **hormone therapy** requiring changes to treatment.
- Evaluation of a **new or ongoing medical concern** outside the scope of preventive care.
- In some cases, a **separate appointment** may be necessary to address these issues.

#### Patient Acknowledgment and Consent

I acknowledge that I have read and understood the information provided above regarding my annual well woman exam. I understand that while the exam itself is covered as preventive care, additional services provided during my visit may result in additional charges or copays.
